**FROM THE EDITOR!  
"UNSPOKEN THOUGHTS"**

The U.S. Government pissed away \$400,000,000.00 on a web site for Obama Care that doesn't work! Is it a surprise? The technology that was used was 10 years old. I know kids that are in school that can design amazing sites. The money that we allow our politicians to waste without accountability is beyond my understanding. The site is a joke, the program is a joke and no one sees the writing on the wall that it will never come close to doing anything to aid the citizens in getting affordable healthcare. We are quickly becoming a nation of Haves and Have Not's! I listened to all the hype about the Government Shut Down and how strong of a negative effect that it had on the economy. My question is, if the Shut Down only lasted 18 days, why have we been struggling to make ends meet for the last 5 years. I know many individuals that are barely getting by from paycheck to paycheck. Many small business are on the edge ready to collapse and probably won't make it to the end of the year. If we don't start holding elected officials accountable we will go the way of the Edsel! The Edsel was a great idea that was just not what the general public could afford. In time you will see that the Obama Care Program is another Albatross that will cause more damage to the economy than the Stock Market Crash of 1929. You know the one, where many people committed suicide to escape the impending doom and ruination!
