**FROM THE EDITOR!
 "UNSPOKEN THOUGHTS"**

I think that I have finally figured out what has changed and hasn't changed in our country. In the Consitution it states, of the people, by the people and for the people. Today that still applies, and is actually working as intended. We the people are still running things in Washington D.C.. The issue that effects all of us is the fact that the individuals that don't want to work, could care less about getting a job, and want the Government to furnish everything for them are now the majority of voters. They want the working minority to work harder to earn more money and pay higher taxes so they can be supported in the manor in which they desire. Untill the working man can become the dominant force we will continue to see the Government spiral out of control to the point of bankrupting the nation. We have let the far left liberals recruit voters by promissing the Sun, Moon and Stars! We will make sure the working class supports you with programs they pay for and you will live like Royalty. You will never spend a day worrying about paying rent, car payments, food or medical. We will punish the individuals that have a dream of prospering and show them that Government knows best. We will make sure that their children are taught a harsh lesson in humility and never set their sights on the big brass ring of success. The evil individuals that own businesses will regret taking that step to financial independence. We will teach them that they don't deserve a house that is paid for. We will tax them to the extent that they will buckle and see that the true way in this country is to let "Big Brother" do the thinking for them. After all, we used this method to subdue the American Indians, and it works.

I would like to hear your thoughts 760-298-0902
