**FROM THE EDITOR!
 "UNSPOKEN THOUGHTS"**

Talk about grasping at straws! The government is now in the process of putting in to place a policy to tax emails. This is to bolster the failing Postal Service. Well if you have ever been to the Post Office, you will know what I am talking about.

The Postal Workers in general move at a snails pace. They don't care about getting anything done in a timely manner. They wonder around as though the world revolves around them. I guess since they are Union Members, they have the right to do so. I know that on an entry level, they make a really good salary. Some of the employees make as high as \$25.00 per hour. I think the part that bothers me the most is that rarely do they smile and greet you with enthusiasm. They have in general the attitude of "Why are you here bothering me?". If it is close to break time, they will play with papers, pens, trash until the magic moment comes. Then they place the closed sign on the counter and strut off like they are Royalty. Our nation is in deep trouble, and it will not be long before it is too late to save it. History has repeated itself, time and time again, and no one seems to realize that we are repeating mistakes that in the business world, will bankrupt even the largest organization.

This week the government announced that we are now at the unemployment numbers that we had in 2008. 7.6% wow! They don't mention the fact that these numbers don't reflect the individuals that fell through the cracks and are no longer looking for work. We live the lie, and seem quite content to pretend that all is well!

I would like to hear your thoughts 760-298-0902
