**FROM THE EDITOR!
 "UNSPOKEN THOUGHTS"**

Well I could talk about the L.A. councilman Mark Ridley Thomas. But, if you are like me, you are tired of hearing about all the crap that goes on in L.A.. Or I could talk about the D.W. P. and how they are refusing to account for the 40 million dollars that was channeled into private non-profit corporations that basically launder the money and spend it on their own interests. I could talk about the young lady that called her coach from middle school that molested her when she was only 12. Seems that she broke the law when she made the recording without the individual knowing. I had a revelation this week that I believe answers many questions that I have had and perhaps you also would like to know the answers I came up with. Everyone has seen or heard of or possibly owns a "Smart Phone". Now they have commercials that are talking about "Smart Cars". I actually saw this car parallel park itself! With all the "Smart Technology" that is coming out every day there is no reason for us to think for ourselves. We can let artificial intelligence do our thinking for us. Soon we will buy a machine to go get a job for us and earn our living. We will send our robot out to meet and socialize for us with our friends if we have other endeavors that require a live body. Soon, we will see if our robots are compatible and would like to try dating. As the A. I. knowledge improves and grows, we will no longer need people. Soon the earth will heal itself because with no pollution from humans it will return to a pristine "Garden of Eden" just like we read about in the "Bible"!
