IZZY PET CARE
 Personalized in home pet care
 Hi my name is Isikuri Iniestra (Izzy), as a pet owner I know what it takes to care for ones pets, but with such busy schedules it's hard sometimes to find the time. That's why I'm here to help! As a certified care taker I'm trained to provide all kinds of service: walking, grooming, pet sitting, transport to appointments. My years of experience is not limited to my own pets. I have worked in animal hospitals and in households dealing with a wide variety of different animals. Let me be the one to make your pet happy.

**FROM THE EDITOR!
"UNSPOKEN THOUGHTS"**

Look out below!
Here comes another

I had a call from a gentleman who reads my editorial and voiced his opinion about how he took exception to my use of the F-Bomb a few weeks ago. So I thought that I would take a moment to address that issue. I can respect you position and defend you right to have it. If you feel that my choice of words is that of South Central L. A., that is your right. I gave this serious thought since hearing your message. I will not give in to outside pressures about my choice in words or actions. That is what is ailing our country today. It has become unacceptable for a person to hear a different drum. If you were to know me in person, you would find that on a good day, I swear more than a drunk sailor. So at that I wish you success and happiness in your life and continue to hold yourself to your higher values. I will continue to view the world from my perspective. Now on to a story that I can't believe happened! An older gentleman had the misfortune of making love to his wife and is now being put on trial for sexually assaulting her. They are charging him with rape. I realize that the woman has mental issues, but to charge this man with a terrible crime such as this, needs to be addressed. People laughed when you mention the novel "1984" and pretend that it would not happen. People laugh at the idea of the "Thought Police" and yet we are seeing more and more evidence of it in our everyday life. We are being monitored and watched every moment, probably even when we are sleeping. I have no doubt that scientists will create a machine that will record our dreams. I would be surprised if it doesn't already exist. Then during the night the "Thought Police" will come and arrest you for having a different objective than what they deem to be acceptable for the good of the people. Heaven help us!
