**FROM THE EDITOR!  
 "UNSPOKEN THOUGHTS"**  
 Well, I guess the pressure was too much for them, the Client and Attorney that I had trouble with never answered if they would like me to publish their letters of accusations against me. Go figure? Now on to some real issues that have come up this week! Tuesday evening at 9:30pm Texas time the jury came in with a Guilty Verdict. The trial was for Routh who killed our sniper. The sentence was life in prison, without parole. It is a shame that California Courts can't deal with issues in such a smooth manner. In Texas it is about justice. In California's Court System it is about "Showboating", "Grand Standing", and seeing how much money can be milked from the people by all parties involved. Then in California you would have a couple dozen appeals and who knows, with the track record of our Governor, most likely a pardon or parole. Next on the list is the skyrocketing gasoline prices! The price on a barrel of oil is still at an all time low. My question is what in the world is wrong with people to stand quietly and just except the gouging at the pump? By the time Summer gets here we will probably be up around \$3.50 a gallon and still being told the same old crap that it is still lower than a year ago. The .06 cents a gallon tax that Schwartzenegger put on us is run it course, but the kicker is the oil companies don't have to give that price break to the people. We are just destined to get screwed again and again. I would not mind that so much if they would throw in a "Kiss and a Thank You" once in a while. But, it is no surprise, our phones are smarter than us. We are really setting ourselves up for a big disappointment in the not so distant future. More and more Government give a ways, more reasons why the working class is evil and deserves every thing they earn be taken from them. I am really thinking that I might design and patent a concept my father came up with. It is a "Glass Belly Button"! That way people with their heads inserted can see where they are going!
